PERFORMANCE BULLETIN 132

Stager Cam Components Gray Color Alternative

Due to global resin supply shortages, AQ Matic has allowed stager cam components to be molded out of either black or gray material. You can expect a mix of gray and black components on cam assemblies for the foreseeable future. Color does not affect the fit, form, or function of the cam components and gray components are fully interchangeable with black.

If any questions should arise, please contact us at TechSupport@AQ-Matic.com or +1-262-326-0100.

Thank you for your business.
