### PERFORMANCE BULLETIN 123

### 962 Transformer Substitution

Due to supply shortage on the 962 transformer PN 1070489, AQ Matic will temporarily substitute a different transformer on 962 orders. The substitute transformer is Triad PN VPL24-210 and is UL, cUL, and TUV approved.

Installation wiring remains unchanged with Line Voltage connected to terminal #1 and Neutral connected to terminal #4.

Original Transformer PN 1070489

Substitute Transformer PN VPL24-210

Note wire colors are affected as shown below when the Triad VPL24-210 transformer is used:
